October 17, 2013

We purchased U-boat covers from Pallet Wrapz to help make our deliveries to customers more efficient and neater. We used plastic rolls of shrink wrap prior to having the wrapz made. The delivery staff had to adapt to the new style of boat cover at first. They are creatures of habit as all of us tend to be. I think the new wrapz add an element of class that was missing previously. These covers are reusable, easily sanitized, and stay attached to the cart throughout the day. We feel good about our purchase as these wrapz will pay for themselves in 3 years (calculating the funds spent on clear plastic wrap to toss or recycle). I recommend these covers for those in a position to improve their delivery process to their customers. It is a good spend for the intended use.
